

program outline

Course Design

Objective:

To design and create interactive and memorable learning sessions, participant materials and assessment tools

Content:

- Identify new learning methodologies and theories and design programs to support each one
- Discover creative and enjoyable methods to support learning objectives. Design a range of participant materials to help develop the learning and act as information prompts
- Plan and design session structure and develop a range of appropriate activities to support each learning style

Outcomes:

- Discover relevant and clear assessment tools to ensure learning is taken into the workplace
- Redesign lengthy and content heavy programs into interactive, interesting, memorable and fun sessions

We customise and tailor to your specific requirements. For more information please call us on 9844 2999 or e-mail talkforce@talkforce.com.au.
